READY MIX CONCRETE - 2 companies - 100% Union

WHOLESALE GROCERS - 2 companies - 1 Union
1 Non-Union

(The Non-Union Company is the Bunn Capital Company of Springfield. The employees in Springfield are members of Local 532. Each year when Local 532 negotiates an increase for its members the company gives the employees in Bloomington the same wages and increases. They have used this method to keep the Bloomington employees out of the Union for years. It is understood they are moving their Springfield business to Bloomington and if that is true Local 18 maybe able to organize them when they don't get their yearly increases.)

LAUNDRIES - 2 companies - Non-Union

(Local 18 has tried to organize the laundry drivers for years. On three different occasions representatives of the Laundry Workers International Union worked with Local 18 giving out hand bills and talking to them but Local 18 was never able to organize them.)

BAKERIES - 4 companies - Non-Union

(At one time Local 18 had all bakeries in the Union but lost them by the companies selling or going out of business and the new drivers would not join the Union as they had been told that it was because of the Union the other companies had to sell out. The Bakers Union did get back in three of the wholesale bakeries. Ever so often we try to organize the bakery drivers but when the company hears about it they call the drivers into a meeting and give them a small increase and the drivers don't join.)

DAIRIES - 5 companies - 2 Union
3 Non-Union

(One of the three non-Union dairies pays the Union scale; the other two are small outfits operated by the family.)

BEVERAGE & LIQUORS - 6 companies - 2 Union
4 Non-Union

(The same thing happened with the Beverage Companies as with the bakeries. Local 18 had them all organized and lost them by changing distributorship. Was able to keep one and organized one company a year ago. When the company was organized a year ago other companies raised their driver's wages almost to the Union scale and the drivers can't see joining the Union for the difference.)

CITY TRANSFER & FURNITURE - 5 companies - 3 Union
2 Non-Union

CITY OIL, GAS AND FUEL - 8 companies - 2 Union
6 Non-Union

DRY CLEANERS - 9 companies - Non-Union

(Local 18 did organize two Dry Cleaning Companies several years ago and helped the Representative of the International Dry Cleaners Union organize the plant workers. Both companies went out of business. The plants reopened three months later under a new owner and we were never able to organize them. All companies pay the driver commission and it is difficult to convince the drivers they may receive an increase on commission the same as on wages. They have heard on several occasions how difficult it has been to get Board approval on commissions increases since 1942.)
